

# ESSEODUE BARRIQUE 10

POTASSIUM METABISULPHITE-BASED TABLETS

## COMPOSITION

Potassium metabisulphite (E 224) 4 g, Potassium bicarbonate (E 501) 2 g.  
One tablet of ESSEODUE BARRIQUE 10 develops approximately 2 gr of sulphur dioxide.

## CHARACTERISTICS

ESSEODUE BARRIQUE 10 is a tablet of potassium metabisulphite quickly soluble in wine.  
Its composition allows a rapid and precise additional of sulphur dioxide to the wine in barriques.

## APPLICATIONS

POTASSIUM METABISULPHITE is a sulphur salt allowed for vinification and for preventive and curative treatments of wine. ESSEODUE BARRIQUE 10 is specifically formulated to be used in barrique stored wine.

**When using ESSEODUE BARRIQUE 10 comply with the relative legal regulations in force.**
